PAYE – Vocational Training Opportunities Scheme (VTOS)

Part 42-04-11

Document last reviewed November 2023

The information in this document is provided as a guide only and is not professional advice, including legal advice. It should not be assumed that the guidance is comprehensive or that it provides a definitive answer in every case.

1 Introduction

The purpose of this manual is to set out the tax treatment of payments to individuals under the Vocational Training Opportunities Scheme.

2 Vocational Training Opportunities Scheme (VTOS)

This scheme, which is operated through local Education and Training Boards (ETBs), provides a range of courses for the education and training needs of unemployed people, in particular early school leavers. Under the scheme, an individual who is aged 21 or over and has been receiving certain social welfare payments, or who has been signing for credited contributions only, for at least six months, is paid a weekly allowance by the ETB instead of an unemployment payment where he/she undertakes a course. Courses, which are full-time and can last up to 2 years, range from basic education and training to advanced vocational training, covering a wide choice of subjects. Many courses lead to qualifications such as the Junior Certificate, Leaving Certificate and awards at Levels 3, 4, 5 and 6 on the National Framework of Qualifications.

Payments made under the VTOS are treated as **not** taxable. Accordingly, deductions of income tax, PRSI and Universal Social Charge should not be operated in respect of these payments.
